

# Example for se2thesis with resq cref

Michael Baumgartner

Master Thesis

March 30, 2024

---

## Some research question

---

**Research Question 1:** *myRQ Some spectacular research question ...*

Look at Chapter 2 ...

---

## problem

---

Somewhere later in the document ...

### 2.1 CURRENT SITUATION

Summary (With `\cref`)

So the answer to ?? 1 is ...

Did not work, and a compiler warning says why:  
LaTeX: cref reference format for label type 'resq' undefined.

Summary (With `\ref`)

So the answer to RQ1 is ...

Works but, does not look to nice.

### 2.2 WORKAROUND / SOLUTIONS

With `\hyperref` nicer solutions are possible.

Summary (Option A: Using the resq number)

So the answer to Research question 1 is ...

Summary (Option A: Using the resq label)

So the answer to *myRQ* is ...
